

IT WAS YOU

Words by Bill Batstone

Vocal Solo by Bill Batstone

All my life Your love's been a guiding light
A light I took for granted like the sun
Looking back there now it's hard to believe it
For it followed me no matter where I'd run
Into my darkest night
You'd shine Your love so bright
I can see it now

(Chorus)

It was You that loved me all along
And You, my God
Who pulled me through
It was You when all my hope was gone
The One I needed, I never knew
Lord, it was You

You know everything about me
Like no one I've ever known
I realize how long ago You found me
And You've always shared my struggle as
Your own

How long it's taken
To awaken
To open up my eyes

(Chorus)

Like a river running deep and wide
All your love flowed down and my fears were drowned
In the overcoming tide

(Chorus)
